

Participants Needed for Research Study on Sexual Fantasies

Are you an adult who has sexual thoughts or fantasies that involve minors (age 17 and below; e.g. children, young teenagers, etc.)? I am conducting a research study about how people engage with their sexual thoughts and fantasies about minors, including how helpful these strategies are and how they make people feel. This is a completely anonymous online survey that will take 15 to 20 minutes to complete. Click the link to learn more and to participate in the study. Please share this link with anyone who may fit the above criteria.
