

## **MAPs Wanted for Study on Romantic Attraction to Minors**

Hello,

**You are invited to participate in a research study on the lived experiences of romantic attraction to minors.**

Eligible participants are **male, age 18+**, and have experienced **romantic attraction to a minor(s)** (age 17 or younger, and 5+ years younger than you are). Romantic attraction is defined in this study as, ‘romantic interest in another person, involving mainly emotional desires.’

Your participation is **voluntary, confidential, and anonymous** (no identifying information will be requested). It involves answering an **online, open-ended survey** on the SoSci Survey platform about various aspects of your experience of romantic attraction to minors. You will not be asked about past or present sexual behaviour.

Time to completion will depend entirely on the amount of thought and detail you choose to provide. You will be compensated \$30.00CAD (via an Amazon eGiftCard or anonymous donation on your behalf to an organization that supports minor-attracted people).

If you are interested in participating or learning more, please visit:

<https://www.soscisurvey.de/romanticattraction1/>

You are welcome to contact the researchers via email if you have questions. (You may wish to use a pseudonym and email address that do not suggest your identity to protect your privacy.)

We sincerely thank you for your interest, and *we encourage you to share this invitation with any fellow minor-attracted people who may be interested!*
